## Roommate Request & Personal Interests

Our first priority in arranging your housing is to connect you to a compatible roommate based on your particular requests. Even though we will do our best to match roommates appropriately, we do not guarantee that you will be assigned to the roommate of your choice. In addition, we do want to make sure to accommodate your special circumstances (i.e. various allergies that require special attention, disability to climb stairs, etc.) If you have special circumstances that may affect your housing placement, please explain below.
